HISTORIES OF ANTHROPOLOGY ANNUAL

Histories of Anthropology Annual presents diverse perspectives on the discipline's history. Open to all aspects and subfields of anthropology, the series encourages scholars to find relevancies between the histories of anthropology and the field's present and future. In doing so, Histories of Anthropology Annual seeks to increase awareness and use of historical approaches in teaching, learning, and doing anthropology. The series offers a wide range of critical, comparative, analytical, and narrative studies differing in their subject matter, methodologies, and links to other disciplines and approaches.
