2. HOAN Report 2018-2020

Since its reactivation in 2016, following the EASA conference in Milan, HOAN has experienced a steady expansion as regards its global connections, the number of members and the activities in which they participate.

This is related to the rising interest in the subject in Europe and worldwide, as the history of anthropology subdisciplinary field passes from the margins to the centre.

By 2020, the network has over 200 members. The number of History of Anthropology panels at EASA has been increasing over time, with **EASA 2020 Lisboa** setting the record of 7 HoA panels and 1 roundtable convened by HOAN members.

Terms of engagement

Anthropology is nothing if it is not a particular way of describing the world. Yet what is most precious to it - the terms and concepts that mark it as a discipline - can also be the most tricky....
